

**VIRGINIA BUSINESSES****Want to drive your utility expenses down and your sustainability measures up?**

- > Save hundreds, even thousands of dollars off of your monthly electric bills, and**
- > Utilize 100% renewable electricity to exceed all of your electric sustainability goals.**

There is currently a limited-time window of opportunity for businesses served by Dominion Energy to reduce their electric supply costs via the purchase of 100% green renewable electricity. Working with Legacy Energy, it's easy to determine if your company can realize these 100% renewable electric cost savings.

There is no cost to have Legacy Energy analyze your energy footprint to identify your savings potential; and there is never an obligation to participate following the results of your analysis. All inquiries are kept in strict confidence, and all it takes to get started are the following two steps:

- 1. Provide a recent Dominion Energy bill copy for each of your electric accounts, and**
- 2. Sign and return the Letter of Authorization allowing Legacy Energy to obtain your detailed electric usage history.**

Warrenton, Virginia has been home to Legacy Energy since its founding in 1999. Our experience, remarkably dedicated staff, and documented history of providing superior energy management services to North America's leading companies is your assurance that we have the scale and endorsement to proactively manage across your firm's entire energy spectrum.
